### Article 7 : COMPETITION RULES

The samples will be presented in a totally anonymous fashion to the judging panels. Upon arrival, the sample is identified by a label on the bottle indicating the name of the competition year, the registration number label (Producer - Arrival No. Sample). Samples will not ring Cete 35-100 TR or crown ring 29 will be reconditioned in a bottle with this type of ring. The implementation is done anonymously by bagging the sample to be presented to the tasters. The bag containing the sample is black baggy and color. The sample is presented without overlap on the bag containing the sample is indicated on a label, the anonymous number (jury, series and item number).

The samples will be grouped according to their category (color, type, grape variety) and will be tasted in series and / or mini series in the series. In a category, if the number of competitors is less than three at the time of registration, the category may be either deleted or grouped at the organizer's discretion. The affected samples may also be re-registered in a generic category. The technical director transmits to the general commissioner the elements of anonymity. The general commissioner makes all the arrangements so that the samples subjected to the tasting are rendered strictly anonymous. He may make any transfer, change of packaging, masking or any other operation necessary to preserve the strict anonymity of the samples. The organizers reserve the right to cancel a category for which an insufficient number of samples have been received: three samples minimum from three different competitors.

**Each wine tasted is scored individually and not comparatively.** The wines will be blind-tasted and for their intrinsic properties. The marking scheme is a point by point system as used in the official OIV tasting sheet out of 100 points. The total number of judges is decided according to the number of samples presented.

The Technical Commission of the Inter Concours du Monde designates nominally tasters members of each jury through its database of international tasters. Each table jury consists of five women jurors, 3 foreign judges and two French judges or 3 french judges and 2 foreign judges each representing one of the five panels below that correspond to the highlighted trades vine, wine and wine tourism trades. We will find a juror of the amateur panel discovery. The choice to integrate amateurs is a deliberate because the panel reflects the tastes and expectations of consumers. Each juror is from a different country and the Technical Committee strives to meet a wide geographical dispersion and panel times. Each judging panel comprises five judges, recognized for their abilities based on each of the following panels:

Panel1: Oenology or winemaking (presidents of the judging panels)

Panel2: Production

Panel3: Commercialisation

Panel4: Education - Communication - Public relations

Panel5: The "discover" consumer

The Women and Wine Association of the World - International Competition™ / Women and Wines of The World - International Competition™ collects a statement on the honor of jury members mentioning their links, direct or indirect, with companies, institutions, professional organizations or associations whose activities, products or interests may relate to the wines entered in the competition.

A juror can not judge his wines. The total number of international female judges is determined by the number of samples presented. A judge may not judge her own wines.

The Femmes et Vins du Monde - Concours International™ / Women and Wines of The World - International Competition™ Association appoints a president and secretary for each judging panel.

The Femmes et Vins du Monde Concours International™ / Women and Wines of The World International Competition Association will ensure the proper functioning of Femmes et Vins du Monde - Concours International™ / Women and Wines of The World - International Competition™ by organising the preparation of the samples and organisation of the tasting sessions.
